Who We Are

High Value-Added Investment Firm

Active Strategies

Autonomous Franchises

Proven Results

Talent-Driven Business Model

Designed for Investment Talent to Thrive

Managed by Business Professionals

Structured to Align Interests

Thoughtful Growth

Active Talent Identification

Entrepreneurial Commitment

Focus on Long-Term Global Demand

Talent-Driven Business Model

Our investment teams focus on generating results for our clients in a distraction-free environment

Business Development

- Attract and develop skilled professionals
- Foster an entrepreneurial environment
- Manage a disciplined business model

Outcome: Compounding

Investment Philosophy

We seek to capitalize on opportunities in developing world economies by investing in companies that compound business value over a market cycle, while implementing a forward-looking construct for managing risk

Business Value Compounding: An Introduction

We emphasize companies with the capital structures and business models to compound business value through a market cycle

For illustrative purposes only.

Stock Selection

Capital Impairment

We emphasize financially sound, free cash-flow generative companies not predicated on financial leverage that are less likely to impair capital during periods of duress

	Retail	Banks
Higher risk of capital impairment	Large-format stores Growth consumes working capital Large up-front capex	Wholesale funded Fragmented market Leverage drives returns
Lower risk of capital impairment	Small-format stores Leverage with suppliers generates working capital Minimal up-front capex	Deposit funded Consolidated market Superior profitability drives returns

For illustrative purposes only.

Fundamental Impairment

We prefer companies where changing business conditions do not impair the trajectory of business value creation

Types of Fundamental Impairment

Abrupt Change

Immediate and permanent loss of value

Cyclical Change

Stagnation in business value through a cycle

Franchise Change

Erosion of value proposition over time

Our Emphasis

Companies where value creation is not predicated on a single uncontrollable factor, such as regulatory risk or dependence on a single customer

Companies with the business model resilience to invest through economic cycles

Companies with the potential to endure over a longer term investment horizon (i.e., terminal value)

Developing World Opportunities

We aim to enhance our opportunity set by emphasizing countries and companies that we believe will benefit from rising domestic demand

MSCI Emerging Markets Index

Significant exposure to high penetration countries

- High per capita GDP
- High household debt levels

Significant exposure to low rates of compounding

- Fully penetrated domestic demand opportunities
- Companies with low or declining return profiles

Result: Constrained opportunity set

Artisan Developing World

Domestic demand focus

- Emphasis on low penetration countries
- Focus on economic exposure rather than domicile

Holdings with attractive rates of compounding

- Domestic demand evolves as income levels change
- Business model emphasis

Result: Enhanced opportunity set

Foundational Risk Management: An Introduction

We implement a forward-looking construct for managing risk by emphasizing differentiated correlation and currency profiles

Differentiated Correlation Profile

We employ a flexible opportunity set to reduce correlations and transcend limitations of index construction

Differentiated Correlation Profile

- Less correlation with emerging markets fund flows
- Below average volatility in multinational holdings
- Thoughtful capitalization exposure

Artisan Developing World Strategy

Risk Management

Differentiated Currency Profile

We implement a repeatable framework for mitigating currency volatility

Currency volatility influenced MSCI EM Index returns by 7% annually on average from 2008-2017

Vulnerability

- External Imbalances
- Net International Investment Position

Volatility

- Floating Currencies
- Managed Currencies

Implementation

- Risk Adjustment
- Dynamic Assessment

Source: Artisan Partners/FactSet/MSCI. MSCI EM total returns in USD and local terms from 31 Dec 2007 to 31 Dec 2017.

Risk Management: Upside Capture, Downside Capture

	Upside Capture Average Up Month	Downside Capture Average Down Month
Artisan Developing World Strategy	333bps	-305bps
MSCI Emerging Markets Index	354bps	-395bps
Difference	-21bps	+90bps

Current performance may be lower or higher than performance shown. Based on monthly returns beginning with July 2015, the first full month since inception. Upside/Downside Capture represents average monthly returns during months when the index was positive and negative, respectively. May not sum due to rounding.

Portfolio Considerations

Portfolio Construction Parameters

- High conviction in top holdings, with emphasis on range of outcomes
- Maximum position size typically 5% at market value*
- Attention to aggregate capital committed

Portfolio Maintenance

- Dynamic position sizing with attention to compounding and reinvestment risk
- Ongoing original research after initial investment is made
- Monitoring individual investments for construct fit

Idea Generation

- Domestic demand, capital structure, business model emphasis
- New capital formation
- International travel, screens

Outcome Orientation

- Measuring investment success across multiple dimensions
- Emerging market outcome

Based on a model portfolio. Individual accounts may vary. *Limitations apply at the time of purchase. As to 75% of its total assets, the portfolio will not invest more than 5% of its total assets in the securities of a single issuer, nor acquire more than 10% of the voting securities of any single issuer.

Biographies—Artisan Partners Developing World Team

Lewis S. Kaufman, CFA, is a managing director of Artisan Partners and founding portfolio manager of the Developing World team. In this role, he is the portfolio manager for the Artisan Developing World Strategy. Prior to joining Artisan Partners in February 2015, Mr. Kaufman was a managing director and portfolio manager for Thornburg Investment Management, where he managed the Developing World Strategy from its inception in 2009 through January 2015. Thornburg was named Emerging-Markets Equity Investment Manager of the Year by Institutional Investor for its Developing World Strategy in 2014. Mr. Kaufman also co-managed the International ADR Strategy from 2007 through 2013, after joining Thornburg in 2005 as an associate portfolio manager. Prior to joining Thornburg, Mr. Kaufman held various investment-related positions with Morgan Stanley and Citigroup. Mr. Kaufman graduated cum laude with a bachelor's degree in English from Colgate University and holds a master's degree in business administration from Duke University Fuqua School of Business.

David Ng, CFA, is an analyst on the Artisan Partners Developing World Team. In this role, he conducts fundamental research as a generalist. Prior to joining Artisan Partners in January 2016, Mr. Ng was a senior fixed income and equity research associate at Dodge & Cox. Mr. Ng graduated Phi Beta Kappa from Stanford University, and holds a bachelor's degree in economics.

Meng (Cece) Ge is a research associate on the Artisan Partners Developing World Team. In this role, she conducts fundamental research as a generalist. Prior to joining Artisan Partners in April 2018, Ms. Ge was an equity research associate at Bank of America Merrill Lynch where she covered energy MLPs and natural gas utilities. Ms. Ge holds a bachelor's degree in applied and computational mathematics and economics from the California Institute of Technology.

Christopher J. Krein is a managing director of Artisan Partners and a business leader for the firm's Developing World team. Prior to joining Artisan Partners in September 2015, Mr. Krein was head of institutional distribution at WisdomTree Asset Management where he was responsible for marketplace research, product placement and formulating a distribution strategy. Before that, he was a managing director at ACCI, LLC. Mr. Krein holds a bachelor's degree in finance (magna cum laude) from DeSales University.

Notes and Disclosures

This section of this presentation contains information important to a complete understanding of the material presented. Please review it carefully.

Artisan Partners Limited Partnership (APLP) is an investment adviser registered with the US Securities and Exchange Commission (SEC). Artisan Partners UK LLP (APUK) is authorized and regulated by the Financial Conduct Authority and is a registered investment adviser with the SEC. APLP and APUK are collectively, with their parent company and affiliates, referred to as Artisan Partners herein.

Form ADV: Additional information about APLP or APUK, the firms, its partners, ownership, investment strategies, fees and expenses and policies is contained in each firm's respective Form ADV. Each firm will supply a copy of its Form ADV upon request.

Artisan Developing World Strategy Investment Risks

International investments involve special risks, including currency fluctuation, lower liquidity, different accounting methods and economic and political systems, and higher transaction costs. These risks typically are greater in emerging markets. Such risks include new and rapidly changing political and economic structures, which may cause instability; underdeveloped securities markets; and higher likelihood of high levels of inflation, deflation or currency devaluations. Securities of small- and medium-sized companies tend to have a shorter history of operations, be more volatile and less liquid and may have underperformed securities of large companies during some periods.

This material may include the views of the portfolio manager and other information relating to the portfolio and portfolio securities. While we believe the data accurately reflects the investment process, this information is presented as of the date indicated and will change over time.

Composite Performance: All performance results are net of commissions and transaction costs, and have been presented gross or net of investment advisory fees. For performance presented net of fees, fees may be higher for certain pooled vehicles and the composite may include accounts with performance-based fees. Dividend income is recorded net of foreign withholding taxes on ex-dividend date or as soon after the ex-dividend date as the information becomes available to Artisan Partners. Interest income is recorded on the accrual basis. Performance results for the index include reinvested dividends and are presented net of foreign withholding taxes but, unlike the portfolio's returns, do not reflect the payment of sales commissions or other expenses incurred in the purchase or sale of the securities included in the indices. A client's returns will be reduced by the advisory fees and other expenses it may incur in the management of its account. For example, an actively managed account of \$20 million with an annual rate of return of 10% compounded over a 10-year period that was charged an advisory fee of 1.05%, would achieve a net-of-fee return of 135.65%; compared to a gross-of-fee return of 159.4% based on the same assumptions.

Unless otherwise indicated, the Artisan Strategy characteristics relate to that of an investment composite or a representative account managed within a composite. It is intended to provide a general illustration of the investment strategy and considerations used by Artisan Partners in managing that strategy. Individual accounts may differ, at times significantly, from the reference data shown due to varying account restrictions, fees and expenses, and since-inception time periods, among others. Where applicable, this information is supplemental to, and not to be construed with, a current or prospective client's investment account information.

MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used to create indices or financial products. This report is not approved or produced by MSCI.

Totals may not sum due to rounding. All data shown is in USD unless otherwise indicated.

Sector Allocation: Sector exposure percentages reflect sector designations as currently classified by GICS. The Global Industry Classification Standard (GICS®) is the exclusive intellectual property of MSCI Inc. (MSCI) and Standard & Poor's Financial Services, LLC (S&P). Neither MSCI, S&P, their affiliates, nor any of their third party providers ("GICS Parties") makes any representations or warranties, express or implied, with respect to GICS or the results to be obtained by the use thereof, and expressly disclaim all warranties, including warranties of accuracy, completeness, merchantability and fitness for a particular purpose. The GICS Parties shall not have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of such damages.

Portfolio Holdings: For the purpose of determining the portfolio's holdings, securities of the same issuer are aggregated to determine the weight in the portfolio. For an index, the largest holdings are calculated at the security level and do not aggregate securities held by an issuer. Holdings information is not intended to represent or predict portfolio investment performance or as a recommendation of any individual security. Portfolio holdings are subject to change without notice. Upon request, Artisan Partners will furnish to any prospective client a complete list of all securities purchased over the last year, including the name of each security, the date(s) it was purchased and/or sold, the market price of those transactions, and the market price of those securities as of the most recent practicable date.

This material is provided for informational purposes without regard to your particular investment needs. This material shall not be construed as investment or tax advice on which you may rely for your investment decisions. Investors should consult their financial and tax adviser before making investments in order to determine the appropriateness of any investment product discussed herein.

We expressly confirm that neither Artisan Partners nor its affiliates have made or are making an investment recommendation, or have provided or are providing investment advice of any kind whatsoever (whether impartial or otherwise), in connection with any decision to hire Artisan Partners as an investment adviser, invest in or remain invested in any funds to which we serve as investment adviser or otherwise engage with Artisan Partners in a business relationship.

In no event shall Artisan Partners have any liability for direct, indirect, special, incidental, punitive, consequential (including, without limitation, lost profits) losses or any other damages resulting from the use of this material.

Composite Performance Presentation

Artisan Developing World Composite

Schedule of Performance Results—1 July 2015 (inception) through 31 December 2017

	Number of Portfolios	Composite Assets (\$ millions)	Total Firm Assets (\$ millions)	Percentage of Composite Assets to Total Firm Assets	Gross-of-Fees Composite Performance	Net-of-Fees Composite Performance	MSCI Emerging Markets Index Performance	Measure of Internal Dispersion ¹	Percent Non-Fee Paying Portfolios
31 Dec 2017	2	\$2,252.6	\$115,494.4	2.0%	36.87%	35.48%	37.28%	N/M	0.0%
31 Dec 2016	2	\$986.5	\$96,845.1	1.0%	13.08%	11.91%	11.19%	N/M	0.0%
31 Dec 2015	1	\$373.8	\$99,847.8	0.4%	-11.75% ²	-12.23% ²	-17.35% ²	N/M	0.0%

Past performance does not guarantee and is not a reliable indicator of future results. ¹A statistical measure of internal dispersion for composites with five or fewer portfolios included for the entire year is not considered meaningful. N/M - Not considered meaningful. ²Returns for the period from 1 Jul 2015 through 31 Dec 2015 are not annualized.

The MSCI Emerging Markets Index is an unmanaged, market-weighted index of companies in emerging markets. Performance results for the MSCI Emerging Markets Index include reinvested dividends and are presented net of foreign withholding taxes but, unlike the portfolio's returns, do not reflect the payment of sales commissions or other expenses incurred in the purchase or sale of the securities included in the index.

MSCI makes no express or implied warranties or representations and shall have no liability whatsoever with respect to any MSCI data contained herein. The MSCI data may not be further redistributed or used to create indices or financial products. This report is not approved or produced by MSCI.

The three-year annualized ex-post standard deviation of the Composite and benchmark is not presented because the Composite does not yet have 36 months of history.

General Information

The firm is defined as Artisan Partners ("Artisan" or the "Firm") which includes all assets managed by Artisan Partners Limited Partnership and Artisan Partners UK LLP (Artisan UK), investment advisers registered with the United States Securities and Exchange Commission. Artisan UK is also authorized and regulated by the Financial Conduct Authority in the United Kingdom. The Firm is an independent, multi-product investment management firm that focuses exclusively on high value-added investment strategies.

Artisan claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Artisan has been independently verified for the periods April 1, 1995, through December 31, 2017. Verification assesses whether (1) the firm has complied with all the composite construction requirements of the GIPS standards on a firm-wide basis and (2) the firm's policies and procedures are designed to calculate and present performance in compliance with the GIPS standards. The Artisan Developing World Composite has been examined for the periods July 1, 2015, through December 31, 2017. The verification and performance examination reports are available upon request.

A complete list of composite descriptions and policies for valuing portfolios, calculating performance and preparing compliant presentations are available upon request.

The Artisan Developing World Composite (the "Composite"), created July 2015, includes all accounts managed by Artisan in the Artisan Developing World Strategy. Artisan invests Developing World accounts in a diversified portfolio of common stocks and other equity securities of all market capitalizations that offer exposure to developing world economies. The strategy seeks to focus its analysis on businesses that are domiciled in or economically tied to the developing world and emphasize financially sound, self-funding companies. The benchmark is the MSCI Emerging Markets Index.

Portfolios in the Composite may invest in equity-linked participation certificates and, in limited circumstances, may use forward agreements to hedge a particular currency that Artisan believes is overvalued if the portfolio has, or is initiating positions in securities traded in that currency. An investment in an equity-linked participation certificate provides economic exposure to a security of a non-US company without a direct investment in that security and creates exposure to the credit risk of the issuing financial institution, as well as to the market risk of the underlying security. The use of forward agreements may reduce the risk of loss from currency revaluations but also may reduce or limit the opportunity for gain and involves counterparty risk, which is the risk that the counterparty will not fulfill its contractual obligation to deliver the currency contracted for at the agreed upon price.

Composite Performance Presentation

Calculation Methodology

The returns provided represent the investment performance results for the Artisan Developing World Composite. The Composite consists of all discretionary client accounts ("accounts" or "portfolios") managed by Artisan in the Developing World strategy described above. All performance results are net of commissions and transaction costs, and have been presented gross and net of investment advisory fees. Dividend income is recorded net of nonreclaimable foreign withholding taxes on ex-dividend date or as soon after the ex-dividend date as the information becomes available to Artisan. Interest income is recorded on the accrual basis. The MSCI Emerging Markets Index uses the WM/Reuters closing spot rates taken at 4:00 p.m. London time to translate values to US dollars. The Composite translates values to US dollars using the WM/Reuters 4:00 p.m. Eastern Time spot rates. All valuations are stated, and returns are computed, in US dollars. Securities transactions are accounted for on trade date. Investment performance results represent time-weighted portfolio returns and are based on daily valuations of portfolios.

Portfolio securities are valued at the closing price on the exchange or market designated by Artisan or its pricing vendor as the principal exchange, as of the time of closing of the principal exchange or, for those markets that are open at the time of delivery of the vendor quotation feed, the last traded price at the time of delivery of the vendor quotation feed (the "time of valuation"). Absent closing price information from the principal exchange as of the time of valuation, a security is valued using the closing price on another exchange on which the security is traded (if such price is made available by the pricing vendor) or the most recent bid quotation on the principal exchange or, if not available, a secondary exchange or in the over-the-counter market. When reliable market quotations are not readily available, securities are valued according to procedures adopted by Artisan.

Fees and Expenses

Net-of-fees composite returns were calculated using the highest model investment advisory fees applicable to portfolios within the Composite. Fees may be higher for certain pooled vehicles, and the Composite may include accounts with performance-based fees.

Artisan generally requires a minimum of \$100 million of assets to establish an account in the Developing World strategy. However, Artisan reserves the right to waive the minimum account size under certain circumstances. Artisan sometimes negotiates other fee schedules depending on the type of account, relationship, if any, to other accounts managed by Artisan, the size of the account, level of service required, potential growth and other factors Artisan considers relevant. Artisan will negotiate an individual fee schedule with a client having assets under management of approximately \$500 million or more. Currently, the investment advisory fee structure is as follows:

New Accounts

Net Assets	Annual Investment Advisory Fee
First \$100 million	0.90%
Greater than \$100 million	0.85%
